Featuring strategic RPG gameplay and roguelike missions that provide a fresh set of challenges every time you play, **Hearthstone® Mercenaries** introduces a brand-new way to play with your favorite heroes and villains from the Warcraft® universe. In this free-to-play game mode, players will recruit and collect legendary characters from across all of Azeroth. They can mix-and-match over 50 unique Mercenaries (with more to come), from among a host of fan-favorites like Sylvannas Windrunner and Ragnaros the Firelord. Each Mercenary grows in power as they level (up to level 30), and all Mercenaries come with three upgradable abilities and potential synergies to create countless squad combinations.

Hearthstone Mercenaries Features

- **Raise a Mercenary Army.** Try out Mercenaries when it launches on October 12 and get eight Mercenaries just for completing the introductory missions! That's enough to put together a Party and immediately start chasing Bounties. Keep playing to grow your collection! Once you have completed the Mercenaries Prologue and start your first bounty, you will also receive the adorable new Sarge mount for World of Warcraft®! Find all details here: <https://support.blizzard.com/article/000296410>
- **Chase Bounties.** What is being a Mercenary if not collecting Bounties? Seeking Bounties is a major part of the Mercenaries PVE experience, and is critical for leveling up your Mercenaries, even if you plan to focus on PVP play. There are tons of Bounties to go after, and each one includes procedurally generated encounters leading up to the Bounty Boss, to keep play interesting. As you play longer, additional difficulty levels can be unlocked, too, for even greater challenges!
- **Exciting Tactical Combat in PVE and PVP.** Mercenaries features a combat system that rewards cunning and anticipation. Before each fight, players will select mercenaries from their team to participate in battle. Each turn, they'll pick their team's actions simultaneously with their opponents and watch the results of the fight play out. Players can focus on PVE by chasing bounties or start competing in PVP to complete achievements, earn rewards, and push for a spot on the PVP leaderboard!
- **Find Balance and Build your Dream Team.** While picking Mercenaries for your Party, you will notice three different colors, representing different Roles. These Roles are Fighter, Caster, and Protector. Each Role has different types of moves, and different strengths and weaknesses. At the most basic level, while on offense, Fighters deal double damage to Casters; Casters deal double damage to Protectors; and Protectors deal double damage to Fighters. Find your favorite combo and build your own dream Team!
- **The Village.** The Village is your central hub for all things Mercenaries. In the Village, you can manage your collection, collect task rewards, head directly to the Mercenaries shop, set off on Bounties, and so much more!
